## Profile

Seeking a challenging role in a reputable organization where I can leverage my technical expertise and managerial skills to drive the growth and success of the organization. Committed to staying updated with new and emerging trends in the IT sector, I aim to contribute to the development and implementation of cutting-edge solutions while continuously expanding my knowledge and skills.

## Experience

### SOFTWARE ENGINEER - CONGIZANT

#### ING BANKING APR 2022-PRESENT

- Played a key role as a Full Stack Developer, focusing on the Onboarding Module, within ING Bank's Customer Data team.
- Led the design and development of new features, optimizing existing code, and performing integration testing to ensure high-quality deliverables.
- Spearheaded efforts in troubleshooting issues, taking ownership of their resolution, and maintaining a proactive approach to problem-solving.
- Actively participated in Sprint meetings, demo meetings, and engaged in customer discussions to gather requirements and present new features.
- Contributed to the development of an innovative application that showcases ING Bank's various offerings to customers, while efficiently consuming APIs and safeguarding sensitive data.

### SYSTEM ENGINEER - TATA CONSULTANCY SERVICES

#### IQ WORLDPAY JUN 2018 - APR 2022

- Experienced Java Back-End Developer in the BFSI industry, contributing to a critical project.
- Valuable member of the core development team at a leading payment processing company in the United States.
- Proficient in handling different project modules, adapting to new requirements, and optimizing code for enhanced performance.
- Accountable for designing and implementing innovative features, resolving bugs, conducting thorough unit testing, and ensuring successful deployment and delivery.
- Collaborated closely with team members, fostering a collaborative environment, and providing mentorship and supervision to new engineers to enhance their knowledge and proficiency in technology and product development.
